

SMOKING POLICY

The Aulac Corporation seriously recognized that SMOKING ONBOARD (especially for Tanker) can cause extreme danger to the life of personnel as well as cargo and property of company. Therefore, hereby issue the smoking policy onboard as follows:

1. The Master must clearly specify the designated areas for smoking and post up prominently "SMOKING AREA" accordingly.
2. While at sea, smoking is allowed in designated areas by the Master, those areas should be posted clearly. Smoking is totally prohibited outside the designated areas specified for smoking by the Master at any time.
3. While in port, the smoking areas are in accordance with the agreement between Responsible Officer and Port / Terminal Representatives. However, depending on special regulations and requirements of particular port or terminal, smoking may be totally prohibited accordingly.
4. Smoking on bed is totally prohibited.
5. When smoking, only safety matches, safety ashtrays to be used in the designated smoking areas.
6. The use and / or storage of electronic or e-cigarettes is prohibited onboard.
7. The use of all mechanical lighters and portable lighters with electrical ignition sources should be prohibited on board.
8. Limiting smoking onboard as much as possible. Whenever seeing anyone is violating the above smoking regulations, stop him/her immediately and report to superiors, company.
9. Be fully aware of that it is everyone's responsibility and duty to check, monitor and prevent all violations of this policy of all persons onboard, including shipboard crew, visitors and guests.

Any company's employee who violates the terms of this policy will have to bear strict disciplinary action and his/her employment with the company can be terminated.
